SUDHANSHU RANJAN

Analyst/Software Engineer

Base Location: Airoli, Mumbai

Email ID: sudhanshu.ranjan@capgemini.com

Mobile No: +91 9546309441

Grade: A4

Education and certificates

Bachelor of Technology
Computer Science: 2017 - 2021

Skills

Java
ReactJS
Cobol
JCL
OOPs

Backend

Cobol
MongoDB
REST-API
NodeJS

Database

SQL database – MySQL, DB2
No SQL database – MongoDB

Web Technologies

HTML5
CSS3
JavaScript

Add-ons

GitHub
Postman

Additional Details

Excellent Communication Skills
Team Player

Strengths

- Ready to adopt new technologies and implement them to further improve my key skills.

- Has working knowledge on Cobol, JCL and Java. Legacy system development using Cobol and JCL on an intermediate level.

- I am creative developer over past years I have worked on many projects based on web and Machine Learning technologies.

- I combine my creativity with strong work ethics and strategy, and I will take care of the technology and programming required to develop application.

Achievement

Credit Card Management System

Created a web application for storing credit card details. I have implemented the core logic of restful API for data storing. User can create account and save their credit card details for future use.

Grain Classification using Deep Neural Network

Implemented DNN algorithms for classification of grains based on their quality. Created interface for passing image to DNN and it is fetching the classified results like good or bad.

Stock Portfolio Analyzer

Created web application which provides the interface for stock analysis. Used Alphavantage API to fetch the stock quotes based upon opening dates. Implemented the core logic to calculate the graph of those data.
